

Alphabetical Listing of IADC Contractor Members

IADC drilling contractors own and operate the vast majority of the world's land and offshore drilling units. The following alphabetical listing of contractors includes the size of each firm's rig fleet and operating theaters, depth ratings of land rigs and, for offshore units, the rig type.

Each company's listing details names of key personnel and addresses of both headquarter and branch locations, as

well as telephone/fax numbers and e-mail and Internet addresses.

Companies whose headquarters locations are printed in bold face are advertisers in the *2009 IADC Membership Directory*. Look for their advertisements elsewhere in the *Directory*. (The Advertisers Index at the back of this volume provides page numbers for all advertisements in the *Directory*.)
